MISBAKHUL KHARIS
Web Developer

Lamongan, Indonesia | Phone: +62856-0787-2843 | Email: kharismisbakhul@gmail.com

SUMMARY

Hi, I'm Kharis. This year, I turned 26 years old. Lamongan is my hometown. I focus on Web Development and have been working on projects in this field for about 6 years now. During the end of my college years, I started taking on projects starting from my internship. After graduating from college, I worked for KUD Minatani Cooperative in the Web Development department, where I created and developed several applications. Besides that, I also took on projects outside of work or freelanced. Then, I moved to PT. Infomedia Nusantara, still working as a Web Developer. While working, I continually deepen my knowledge of Development. I am always open to learning the latest technologies. In my opinion, learning new things is very interesting and important to stay relevant. In my free time, I usually exercise, especially basketball, read books, and sometimes watch movies.

To get to know me better, you can check out my social media:
